

Features and use of SNS EU Betaalrekening

ASN Bank is a Dutch bank. This means that all our copy, in letters, emails, terms and conditions and other types of information, is written in Dutch. This is also true for Mijn SNS (internet banking) and the SNS App. That is why we have drafted this document for you. It contains information on the account's main features and instructions for use.

All costs concerning the SNS EU Betaalrekening can be found on the Tarievenwijzer Betalen.

Interest

SNS can charge interest on the positive balance on the EU Betaalrekening or part of it. The interest rate can also be zero. We can divide the balance on your SNS EU Betaalrekening into balance classes. And determine which interest rate applies per balance class. The interest is variable and we can adjust it immediately. We can also change the balance classes immediately. We'll let you know if we adjust the interest rate or balance classes. The interest is on an annual basis and you pay quarterly. Safe banking with ASN Bank

If you follow the security rules you will reduce the risk of becoming a victim of fraud. Have you become a victim of fraud? And did someone take money from your account without your permission? In that case, the law prescribes that we refund the amount that was taken. We are not always obligated to refund the withdrawn amount. If you don't follow the security rules, you run the risk of having to pay for the full damages yourself. Read more on the security rules at sns.nl/veiligbankieren.

Good to know: we will never ask you for your security codes (PIN and passwords). Also we will never ask you to send us your debit card and will never come by to collect it.

Important security rules

- 1 Keep your security codes to yourself. They are personal. Make sure that nobody else has access to your security codes, username and password (PIN, Mijn SNS, SNS App). Also make sure that nobody is looking over your shoulder when you enter your security codes.
- 2 Make sure that your debit card, app and Mijn SNS are not used by other people.
- 3 Make sure that the devices that you use for banking are properly secured.
- 4 Monitor your account.
- 5 Please report any incidents to us immediately, and follow our instructions. Call +31 (0)30 633 30 00 or visit one of the ASN Bank branches.

Who is liable?

Our liability after you have reported fraud

We will take immediate measures as soon as you have reported fraud. We will, for instance, block your SNS Betaalpas, Mijn SNS and the SNS App. If any amounts are taken from your account after that, we are liable. Condition is that you report fraud as soon as you notice (or could have noticed) it. Therefore, you should always check your overview of debits and credits in Mijn SNS for unauthorised withdrawals.

If we are liable, we will refund the direct damages suffered by you. That is damage through:

- possible costs that we charged for a payment;
- interest that you have paid when the fraud caused a negative balance;
- amounts that were unjustly taken from your account;
- damage caused by intent or gross negligence by us.

For what kind of damage are we not liable?

- Damage through misuse by fraud, intent or gross negligence by you. Or fraud, intent or gross negligence by your authorised representative.
- Damage caused by a disturbance of Mijn SNS or because we were forced to block Mijn SNS for security reasons. Or because we refused to process your transfer order via Mijn SNS.
- Damage caused by unusual circumstances that we could not foresee or influence.
- Damage that is the consequence of us having different legal obligations due to national or European legislation.
- Indirect or consequential damages.
